Dear Parents and Guardians

In keeping with our contemporary vision to inspire and engage students in their learning at Emmanuel Catholic College, the school operates a 1:1 Laptop program. As such, students joining Emmanuel Catholic College are required to have their own device and ensure they bring this to school.

The College is transitioning to a preferred device model in 2023 to provide your child with a consistent experience and learning opportunities. To align with College teaching and learning practices, the preferred device is the Apple MacBook Air (M2,) with 8GB CPU, 8GB GPU, 8GB Unified Memory and 256GB SSD Storage.

The software and cloud storage provided by Catholic Education Western Australia lower the on-device storage requirement. The base model M2 devices are powerful enough to give an expected 4-5 years of good use.

Suggested Accessories:

- Protective Case/Cover
- Accidental Loss and Breakage Insurance (the College accepts no responsibility for damage)
- A hard-shell protection case.

Families may choose where they would like to purchase their device; however, the College recommended supplier is Winthrop Australia. For a list of College recommended devices available, please go to the Winthrop link: <https://sales.winaust.com.au/shop/emmanuelcc>.

The College does have high expectations around appropriate use of the device at all times. If you have any questions in relation to the device, please contact Mr Basil Psanoudakis, Head of eLearning at the College, on 9414 4000.

Yours sincerely

Mr Paul Watson
Principal
